TO ENHANCE YOUR WOW PRODUCT In order to obtain the maximum WOW effect, use 1 mm - 0.039 in spacers between the tiles to maintain an even installation over the whole surface. The colour of the grout should be as close as possible to the colour of your product. Once the area has been grouted, and before the grout dries, remove any excess material with a damp sponge.

MAINTENANCE Maintenance free. Easy and practical to care for, due to the high standard of technical characteristics in each manufacturer's ceramic product. Avoid abrasive or acidic cleaning products. It is recommended to clean with clear water.
