Ardor

Ardor

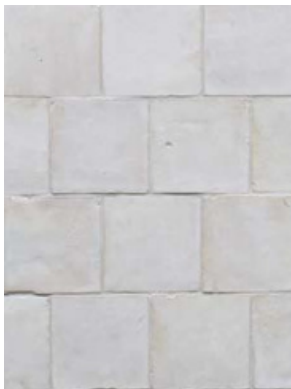

Handmade in Fes, Ardor represents the authentic heritage of Ardorlige tilemaking that has flourished in Morocco for centuries. The unique surface, edge and color variation of Ardorlige has made it much sought after by designers and homeowners seeking the most authentic expression of handmade tile. Today, the production of Ardorlige remains unchanged; each tile is made completely by hand, from forming and pressing the clay body to glazing, cutting and packing. Our Ardor collection offers classic Ardorlige shapes as well as new offerings, all sure to bring unmatched character to any space.

Variation, Usage & Technical Information

Variation

Ardorlige tiles are made entirely by hand in Morocco and each tile will be different from the next. Please expect the following characteristics which are inherent in authentic Ardorlige tile from Morocco.

- Chips off the surface of the glaze exposing the clay beneath
 - Imperfections on the tile face
 - Dips in the surface of the tile
 - Uneven edging of the tile
- Wide variation in color/shade between tile pieces
 - Glaze pooling in areas of a tile
 - Lime pops that expose the substrate of the tile
 - Thickness variation from piece to piece

Variation between samples and tiles received is possible, as handmade techniques of glazing make shade and color variation an inherent part of the product. Samples received before shipments should be considered indicative of color only. Driftwood Design Lab will not honor any claims made for these characteristics listed above if claimed as defects.

Pools, Spas & Fountains		
Ardorlige has traditionally been used in pools and fountains in Morocco. However, Ardorlige tiles do not meet US standards for use in pools, spas or other areas where it will be regularly submerged in water; and we do not recommend Ardor for these applications. Use of Ardor in pool, spas and fountains is at the discretion of the customer and no claims for damage will be honored for Ardor used in these applications, regardless of installation methods.
