

Lustro

Sustainability

Our state-of-the-art manufacturing facility also operates with sustainability at its core. Key practices include a nearly closed-loop process, where raw materials and water waste are efficiently recycled back into production. Additionally, our facilities exceed legal requirements, incorporating antipollution devices such as smoke and sand depurators, water purifiers, and reutilization of heat from kilns and production losses. The plant also utilizes eco-conscious packaging and has received accolades from rigorous certifications such as DECLARE, ISO 9001, LEED, EPD, GREEN GOLD, and GREEN SQUARED.

At TNC, our commitment to the environment resonates through every solution we create. We firmly believe that sustainable practices not only benefit our planet but also enrich the lives of those who choose our products.

The collection

Lustro is an elevated interpretation of the beloved terrazzo look, capturing the essence of antique grandeur and the effervescent spirit of Venice.

Inspired by the city's rich cultural heritage and vibrant artistic scene, the collection draws its muse from the famed Venetian Carnival—celebrated for its colorful costumes, intricate masks, and opulent masquerade balls. Each surface pays homage to these coveted celebrations, where bold speckles and vivid hues come together to create an elegant, striking, and lively expression of Venetian splendor.

The name “Lustro” derives from the French word “mysterious,” perfectly encapsulating the enigmatic and captivating beauty of this collection. Just as the Venetian Carnival is shrouded in mystery and intrigue, this collection invites you to explore its depths and discover the stories it holds.

With a vast array of colorways including Blanco, Rain, Sahara, Ashen, Tempest Grey, Forest, Beige, and Cobalto, each terrazzo-inspired surface infuses a festive exuberance into any design space with its wide range of faces and vibrant aggregate embellishments.

Available in two exquisite finishes—Structured, a high grip solution ideal for outdoor use, and Semi-polished, offering a natural sheen—and offered in three versatile dimensions — 12"x24", 24"x24", 24"x48" and a 4"x24" Bullnose option — these made-in-the-USA porcelain surfaces seamlessly blend durability with the timeless elegance of Venetian artistry

Finishes

Semi-polished

Grip

The Semi-polished finish features a moderate sheen, The Structured finish features a slightly rough surface allowing it to reflect light in a remarkably soft way. that enhances the materiality of the surfaces, lending These qualities, combined with an equally smooth tactile it a realistic feel. It also stands out for its remarkable feel, lend itself particularly well-suited for residential floor anti-slip grip and high resistance to wear. Due to these installations and wall applications across a wide range of characteristics, it is particularly suitable for settings environments, including commercial and public spaces.requiring significant technical performance, such as high-foot-traffic areas and outdoor spaces.
