## **Osmosis**

Art beats within our DNA. Inspired by the ornamental essence of Art Deco—a movement that revolutionized the late 19th century by weaving art into every aspect of life—, Osmosis reinterprets its spirit through a contemporary lens. The collection sparks a dialogue between decorative tradition and the expressive language of modern ceramics, where each piece becomes a gesture of sophistication. Its elongated and elegant formats, paired with a color palette inspired by precious stones, evoke timeless luxury and the delicacy of noble materials.
