

Domus

Domus

In the tapestry of time, Rome, the eternal city, stands as a beacon of history and timeless beauty, often exWAVE through its local marble, Travertine.

The classic proportions, tones, and perfect textures transcend time, reproduced in a pure form, curated through the keen eye of design.

Domus is the contemporary version of noble Travertine slabs. Although no longer available in nature, technology have materialized it into a prime resource for architecture, interior designs, and furniture.

A new surface, from today to forever. An impeccable selection, the most precise color, and perfect veins are made new, once again.
